HAZARD TO YOUR FUTURE*

You **have been maneuvered** into giving your children to the State. In the name of "the latest educational materials and methods" the program presented to your children at accredited schools has been changed from education to indoctrination. It hasn't happened overnight. It's taken a generation or more to accomplish. But you can clearly see the results as you observe young people today. Even the media have finally joined in exposing the Decline of Education.

The State's educational methods have to date largely disoriented your kids and left them with neither rudder nor chart. To help them salvage their minds, to regain their true bearings, to teach them how to think so they can establish rational values, you can reverse the same methods used by the State - but only if you **learn how those methods work!**

A star to steer by . . .

The man who **does not** read has no
advantage over the one who **can not**.

Since you really do care about your children, had you only known you would have begun long ago to study and educate yourself about the true condition of educational indoctrination. To help you make up some of the lost time, the program we provide here indicates an order in which you can gain maximum insights and knowledge in the shortest time possible.

Don't say you do not have time ! The time you do not have is past. You **can't afford not to learn** what has happened to your child . . .
