

YOU WILL COME TO REALIZE there is a difference between the public media and the private press of which this **INSIGHT LETTER** is a part. The public media are controlled by vested interests. What you are allowed to learn from them is selected by central wire service editors and advertisers whose income supports the publication. The "private press" answers only to its customers. **We are on your side to help you** take your children on a journey into educational sanity following in the wake of Flint School Aboard TeVega and teQuest as charted by the 4R's Academic Method, International, since 1965.

Place your copies of

Your Children's Future

following this divider.

REMEMBER - Society and the schools are only doing **TO** your children because of what you are not doing **FOR** them. Here are many ideas that will help your children find values in their educational experiences.

An index of all articles published in this letter will be furnished in the twelfth issue so that you will have ready reference to all ideas suggested.

FOLLOWING IN THE WAKE OF FLINT SCHOOL ABOARD
